

MESSAGE OF LIGHT BY JOHN
BEFORE THE FESTIVAL OF THE HOLY DOVE 2021

Readers of the Grail Message have been preparing for some time for the great Festival of the Holy Dove, which is only days away. Every Grail Festival has an importance that you should know about.

Every Grail Festival is important for man and creation. The Light does not act in the same way at each Festival, even though we see that the readers of the Grail Message prepare themselves in the same way. The spiritual evolution of each person remains and remains what is most important for each person.

We keep on repeating that everyone must think more about the search for his spiritual evolution, which he must place as one of his most important concerns in his life. Speaking of spiritual evolution should challenge everyone to ask themselves what spiritual evolution is and what are those things in life that contribute to spiritual evolution.

The human being is on earth to seek to evolve spiritually, this evolution also entails the evolution of the earthly material conditions that the human being has the mission to bring to their development for his wellbeing during his time on earth.

This spiritual evolution brings changes in people's lives. You who are readers of the Grail Message have the teachings of the Holy Word given to you precisely to understand them and to make them come alive in your life in thought, word and deed so that you can evolve spiritually. With spiritual evolution you experience in your life what the practice of true love, of love of neighbour can bring to you in life, which gives you another understanding, and you also have another approach to everything that happens in life. You will know how to deal with any situation in life.

Any difficult situation will not shake you, will not crush you, will not torment you, because you have explanations that give you understanding about any situation and you will know how to adopt the right attitude and the right behaviour according to the Word. By such a good reaction in conformity with the Holy Word to any situation in life, whatever it may be, it is a proof of the maturity and spiritual evolution of the person, who, in front of any negative situation in his life, will try to understand it in order to know what he will have to do always in conformity with the Holy Word which will give him the right way to act or react.

It is the conformity to the Laws of his life at every moment in thoughts, words and actions in every situation of life that brings spiritual evolution in the human being. For this it is necessary to understand the teachings, to be convinced of them and to practice them.

With spiritual evolution evil in all aspects of life has no place among human beings, it is the triumph of true love among human beings according to the Creator for a better world where the Force of love reigns everywhere.

Seeking spiritual evolution is therefore important for human beings.

MESSAGE OF LIGHT BY JOHN
BEFORE THE FESTIVAL OF THE HOLY DOVE 2021

The preparation for a spiritual Festival, a Grail Festival, should not be more focused on the material side. People should think more about the spiritual preparation for their spiritual evolution, because it is a spiritual Festival.

The purification of thoughts is what must be the main concern of anyone who has truly understood the very high significance of what a Grail Festival is for his life, and who is thinking of participating in it especially with the idea and the deep and serious intention of receiving the Force that is poured out on that day, a Force that he knows is important in his life, a Force that will favour his spiritual evolution and that can change many negative things in his life.

Any other behaviour, any other attitude dictated by material intellectual calculation during the preparation for such a Festival, to show off, to impress others, to meet with one's acquaintances for some other interest which is not related to the Festival, must not be part of the preparation for a spiritual event of such great importance for the survival of all creation.

Readers of the Grail Message must not make this great Grail Festival a routine in their lives. For a spiritually evolving person, each preparation and participation in a new Grail Festival is different from the previous ones. The preparation and participation in a Grail Festival must not be done in the same way under the same conditions, a change must occur somewhere, especially with the awareness of the importance of the Festival and the Grace given to each one at each Festival to be able to receive more Strength for his spiritual evolution which also changes his life. This change must be more internal, starting with the purification of one's thoughts.

It is the will of the Light that the readers can receive at each Festival this Force of the Light that will help them in their spiritual evolution and also change their life in one way or another for their good.

But what we see is that participation in a Festival has become a mere formality, a routine for those who do not understand anything, they prepare and introduce themselves in the same way at each Festival. They participate in the different Festivals without making any change in their behaviour, their way of life. This is the proof that they still have the same thoughts at all the different Festivals, that they still have the same behaviour, the same characters, the same way of living, so there is no sign of change from what they have always been in their lives. A sign of change is brought about by the practice of the teachings in their lives. The practice of the teachings should bring about a change in the life of a human being who has understood the teachings well.

The greatest change that is spoken of, which is the most important and brings about other positive changes in one's life, begins with the change in one's thoughts which is the result of being aware of what a Grail Festival is and how seriously one must be prepared to receive the Force that can bring about positive changes in one's life and even a miracle.

MESSAGE OF LIGHT BY JOHN BEFORE THE FESTIVAL OF THE HOLY DOVE 2021

The precious teachings of the Grail Message are what man urgently needs to understand and practice in his life if he is to evolve spiritually. In these teachings clear explanations are given on how a human being should conduct himself, lead his life in thoughts, words and deeds at every moment of his life in accordance with the Holy Word for his good, the salvation of his soul. And if everyone lived the same way the world would be a better place.

A reader of the Grail Message who has made the teachings in the Grail Message his own, he must be an example to all others wherever he may be in the way he behaves, in the way he speaks, which must be a reflection of his inner life and his thoughts which are pure.

You live in this world, but you must not live like the people of this world. You must precede humanity in the change that must take place in the way people live for a better world in which the Force of true love reigns.

The value of the teachings given in the Grail Message is in their practice in your life that you will experience what positive change they can bring to your life that can be translated into your life, starting even with the simple fact of giving you back the joy that you have been lacking, and that is through the understanding that gives you the answer to something that has been tormenting you and for which you have never found any answer. But remember that what the practice of these teachings can bring you extends further into all areas of your life for a better life.

The mere reading and theoretical knowledge of the teachings of the Message is of no use to you if you do not put them into practice in your life. Anyone who has understood, practised, and lived according to the teachings of the Grail, such a person will not be the same, a change must take place in his life.

The Grail Message is the Truth. The teachings in the Grail Message also have force which is transmitted to the person who reads them in a sustained and deep way in a calm manner with the will to understand them in order to practice them, to make them alive in his life.

A good preparation for a Grail Festival must begin days before the Festival, a regular reading of the Message is of great help to stay in the atmosphere formed by the thoughts during the reading of this spiritual knowledge which allows you to connect to the Light. Make regular reading of the message a routine.

Let the Grail Festival not be and become a habit, a routine, for those readers who go only because it is a time to celebrate the Festival.

All these different dates of different Grail Festivals are not chosen by chance by the Light. Everything has a meaning and an importance.

In the Beyond, the different Grail Festivals are not celebrated in the same way. At each Festival, there is a change that takes place for all. In the Beyond, people have pure thoughts. The Light is everywhere where people are, we do not need to make efforts for our evolution. There are servants who are at a high level of evolution and who live in

BEFORE THE FESTIVAL OF THE HOLY DOVE 2021

Temples full of Light. There are elders, servants who have never incarnated on earth, who live in Temples covered with Purity. These Elders come to celebrate the Festivals with all. They do not stay close to people because of the strong Light that covers them and their Purity.

This is to tell you that the people who are in the Beyond, they celebrate the Grail Festivals with all. The way of Celebration of the Festivals is on earth is different than in the Beyond. Everything is Pure for us on the day of the Festival.

The Force of Light is needed by all for their evolution. We evolve from the level we were at and people are all in the service of the Light to evolve, to go to a higher level.

And during this time of preparation for the Festival, we also prepare ourselves accordingly to have the Force that raises us to a higher level. No one in the Beyond neglects this celebration of a Grail Festival. There are other Festivals that we celebrate in the Beyond where we take into account what the Light asks us to do to be able to receive the Force. This is a glimpse of life in the Beyond for a Grail Festival.

We know that on earth you are living something else, but that does not prevent you from living according to God's will. The Festival must be a moment of recollection, so that people, the readers, receive the strength that will help them in their spiritual evolution.

The Lord knew all about the life of Human Beings that HE had written his Grail Message for Human Beings. HE knew the Force that descends on the day of the Festival. People could not stay the same, they had to evolve. People have to speak well of you.

The Cross that the readers carry is the sign of Truth, you should have a good vibration wherever you go. Especially women who have the Force in them, they should vibrate well. The woman should bring the good news wherever she is. The True Woman has her place not only in her home but in the society.

The Grail Festival should not be like a routine for the readers of the Grail Message who have made the festivals an occasion for a usual meeting which they note down in their diary, which they will celebrate and forget to wait for another occasion to come.

The day of the Grail Festival must be engraved in the hearts of the people, the readers.

The readers must understand the meaning and the High Significance of a Grail Festival, which they must feel intuitively to prepare it well in order to celebrate it well in meditation and joy.

A Grail Festival must not be celebrated with worries, with problems that do not give you joy, you will waste your time staying in rooms of recollection being in this state.

The Light, which knows you better than you know yourself, advises readers to give themselves plenty of time to prepare for a Grail Festival. We advise a period of two months of preparation before the Festival. During such a period you have sufficient time to examine yourself to remove all those occasions which are causes of worry, anxiety,

BEFORE THE FESTIVAL OF THE HOLY DOVE 2021

anger, hatred and other bad attitudes of distraction which block the Force and reception of the blessing of the Light which are given on the Day of the Festival.

You will work to purify your thoughts. You must not wait for the Day of the Festival to seek the purification of your thoughts. The Festival of the Grail is a spiritual Festival which is not to be compared with any other festival. A Grail Festival requires purity of thought for those who know it and want to benefit from the Graces given by God to human beings during these Festivals, for their good. These graces can only be received by those who have pure thoughts.

A Grail Festival is not like those festivals where one comes to show off one's clothes, to show off, to be seen, to meet for moments of pleasure and other things without any spiritual purpose.

God is Love and He always gives Grace to His creatures in different ways so that they receive the Strength they need to help them in different problems of their life. Always be ready to receive the Power on the Feast Day.

The Light will act strongly on this coming Festival of HOLY DOVE 2021. The Force of the Light that descends in every Festival is to help human beings in many things in their lives. There are many things happening a few days before and after the Festivals that the readers are not aware of.

God in His Love always wants to help human beings with the Force that HE sends to them at each Grail Festival. This help of God to human beings is not only limited to the Power that flows into the Creation.

God also sends ANGELS who descend before the day of a Festival to accomplish their mission entrusted to them by God, to bless people before the day of the Festival. These Angels have a mission to bless people previously chosen by the Light to receive God's blessing.

It is not on every Festival of every year that the Angels descend to bless people. It is God alone who decides when to send the Angels on a mission to bless people chosen for a specific reason.

There are spiritually and highly elevated beings in the Beyond who receive the Messages that pass through different levels in the Beyond to the Helpers.

On the Steps of the Throne of God, there are Great Temples in which are the Elders who serve God. They are the ones who receive the Messages from Above and pass them on to the spiritually elevated ones who in turn are responsible for passing them on to all parts of the world and even to the earth in matter.

In the Beyond people receive grace during the Festivals, a grace that raises them to a higher level that also brings them a change from what they were before the Festival. So it is not a routine.

MESSAGE OF LIGHT BY JOHN
BEFORE THE FESTIVAL OF THE HOLY DOVE 2021

On Earth, servants receive strength and blessing that helps them in their lives for their evolution and the accomplishment of their mission, which must also bring changes in their lives. This is a grace from God.

The Angels come down before the Grail Festival for the blessing of God to those whom they are sent to give the Blessing through the Light. Those must be open to the Light and ready to receive this blessing of the Light when the Angels are before them to bless them.

Everyone who is visited by the Angel has the grace of God. God is always working in the Whole Creation in one way or another.

We ask that people prepare well for the Festival of the Holy Dove. The Angels will descend before the Festival Day to bless the people who will open themselves to the Light to receive the Power that descends on the Festival Day.

The blessing will be upon the servants who are in the service of the Light. The servants in the mission of the Light, they need the blessing of the Lord to do well in their mission, which is a grace for them to be blessed before the Day of the Holy Dove.

We have informed you of what is to happen, so whoever receives this message should prepare themselves accordingly for what is to happen, which is the expression of God's Love for human beings.
